## December 2009

### Program B

Dear Parents,

We had a wonderful month of November, full of learning about being thankful to God for everything we have and everything around us. Our Thanksgiving feast helped us learn about the first Thanksgiving. We made some of the same food that the Pilgrims and Native Americans had long ago.

In preparation for reading, we concentrated on the letter Tt and its sound, and continued to practice numbers and patterns in Math. This month, we'll work on Jj, Mm, and Ss. Coming up next week, J is for Jesus, jingle, joy, and jolly!

December will be packed with Christmas lessons and preparations in this season of Advent!

Sincerely,

Mary Cote and Mary Rohanna

**We hope that your family has a happy, healthy and blessed Christmas and New Year. The children know that we celebrate Christmas because of Baby Jesus, and as we all observe, children display the true wonder and joy of the season. May they fill your households with their energy and spirit this Christmas and always.**

Thank you for your support of *Operation Christmas Child*. Your generosity will certainly make a difference to many children, and helped your child learn about giving to others.
