

Dear Parents,

During the next few weeks, we will be finishing our groundhogs (including HOMEWORK!) and making Valentine projects. We plan to start tracing our names and doing some number games. The special color is PINK and the shape is a HEART. We will start working on our special end of the year book. This is a continuing activity, which will be sent home during the last week of school. We will begin using the computer with the (Program A) students this month.

SPECIAL THANKS

Thank you to Sophia's mom and Olivia's Grandmother for being the classroom readers for the month of January.

Special thanks to Maddie's dad for reading to the class and telling them about his job as a community helper (police officer).
